

Campervans – Model Year 2026

For over 30 years, Ahorn Camp has been synonymous with motorhomes featuring state-of-the-art technology and excellent value for money. Founded in 1991, the company is now run by the second generation of the family. With three branches of its own and an extensive network of partners, Ahorn Camp offers advice, sales, rental and service from a single source. Ahorn Camp motorhomes have won multiple awards for their outstanding design and innovative solutions.

Ahorn Camp.

A new era begins.

The new Ahorn Camp vans based on the fourth-generation Renault Master combine modern design, innovative technology and first-class driving comfort with reliable quality at a new level. The unique partnership behind Ahorn Camp motorhomes combines Renault's efficiency, safety and reliability with the Erwin Hymer Group's highest manufacturing standards and Ahorn Camp's innovative strength and customer-oriented development – embedded in a Europe-wide dealer and service network.

Discover vehicles that set new standards: with stylish equipment, intelligent connectivity and advanced assistance systems – for maximum safety. Quality, technology and design at a fair price – without compromise.

01

Smart design meets premium quality

Our motorhomes combine stylish design with well-thought-out space solutions and high-quality workmanship at a fair price.

02

Comfort & driving pleasure included

Excellent driving dynamics, an ergonomic cockpit and modern equipment make every journey an experience. Comfort you can feel with every kilometre.

03

Pioneering technology

Innovative driver assistance systems, connected features and intelligent controls ensure maximum safety, efficiency and control. Ready for tomorrow.

Model overview **Campervans**

The Ahorn Camp Vans based on the Renault Master combine compact dimensions with a well-thought-out layout and high-quality fittings. Both models offer up to four seats, up to three sleeping places and a modern interior with clever storage space and smart details.

CV 560

up to 4 seats 2(3)*

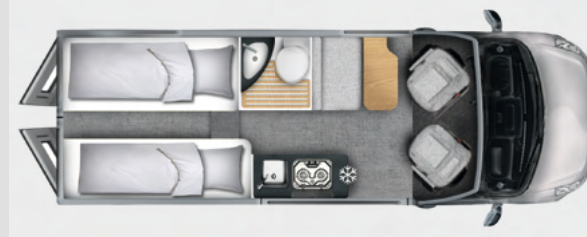

L: 5,68 m | W: 2,08 m | H: 2,60 m

The CV 560 impresses with its manoeuvrability, compact dimensions and comfortable transverse bed in the rear.

CV 630

up to 4 seats 2(3)*

L: 6,31 m | W: 2,08 m | H: 2,60 m

The CV 630 offers even more space and storage with single longitudinal beds in the rear that can be converted into a double bed.

Aerodynamics

The sophisticated aerodynamics of the new Renault Master ensure outstanding energy efficiency and lower fuel consumption. Its drag coefficient is more than 20 per cent lower than that of the previous generation and is also significantly lower than that of current competitors.

Renault Master Chassis

Awarded 'Van of the Year 2025', the new Renault Master sets standards in efficiency, comfort and technology. The new Blue dCi engine generation (Euro 6e), the improved air shaping design and the 9-speed automatic transmission ensure smooth running, lower fuel consumption and genuine driving pleasure. With numerous assistance systems, modern infotainment and an ergonomic cockpit, the new Master is perfect for discerning motorhomes – comfortable, safe and forward-looking.

New 9-speed EAG9 automatic transmission

Enables particularly smooth gear changes – for a relaxed and comfortable ride. optional

New 2.0 litre engine with larger turbocharger

Ensures better performance and increased efficiency.

Reinforced chassis

Stable vehicle structure ensures crash safety.

Speed management

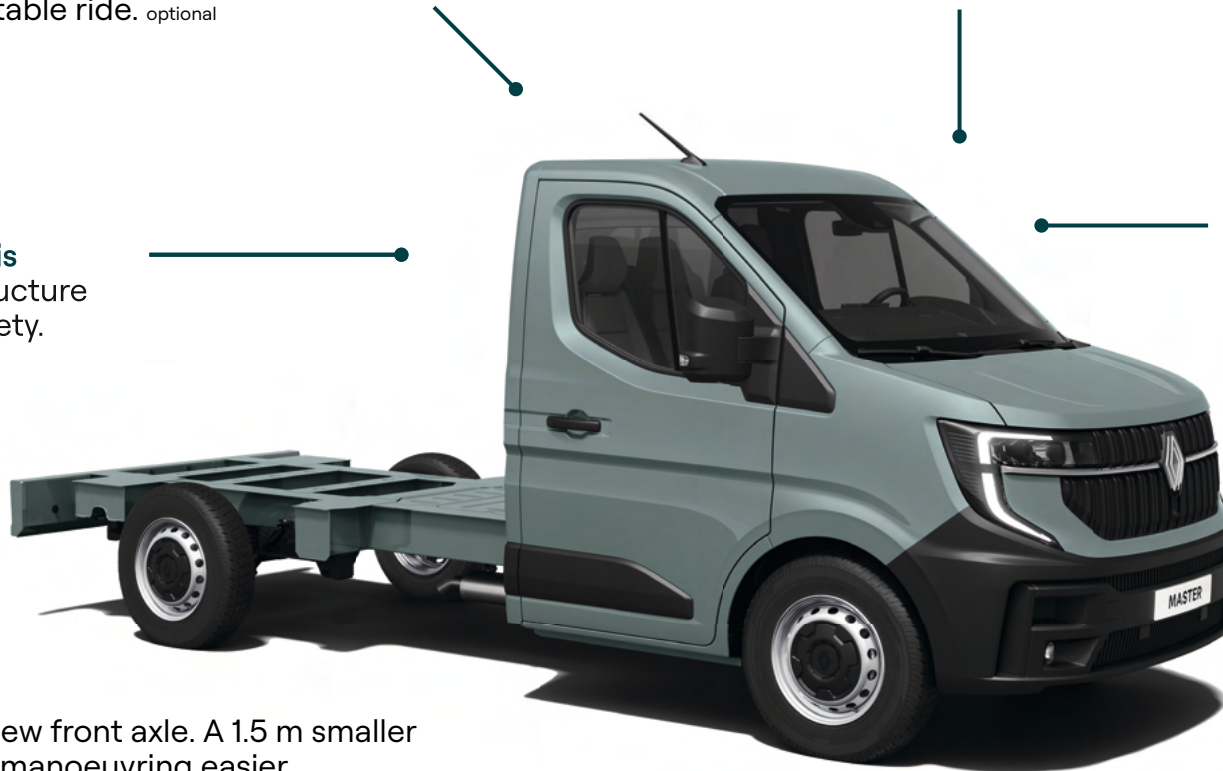

Lower revs at motorway speeds reduce fuel consumption and ensure a quieter driving experience.

Agility & Stability

Made possible by a new front axle. A 1.5 m smaller turning circle makes manoeuvring easier.

New electric power steering

For precise steering response and increased safety.

Driver-focused cockpit

Modern S-shaped cockpit design for optimum ergonomics and intuitive operation – entirely geared towards the driver.

Available engine variants

Engine Power	dCi 130	dCi 150
Power / max. torque	130 PS / 96 kW, 350 Nm	150 PS / 110 kW, 360 Nm
Gear	6-speed manual transmission	6-speed manual transmission 9-speed automatic transmission

Multimedia system

The OpenR link system with 10-inch touchscreen offers intuitive operation and wireless smartphone integration. Over-the-air updates ensure that your infotainment system is always up to date and connected.

Efficient.
Secure.
Excellent.

Living area

High quality. Modern. Smart.

The new generation of campervans combines modern design with advanced technology. Timeless, warm wood harmonises with matt black fittings to create a stylish atmosphere. The full LED ambient lighting can be dimmed and colour-adjusted via the smart home system.

Comfortable living and sleeping

The dinette seats up to four people and is available with Isofix as an option. Swivel seats and a fold-out table ensure maximum flexibility. Optionally, the area can be converted into an additional sleeping area in no time at all. Both campervan models can comfortably sleep up to three people. For even more space, the table can be easily removed.

Kitchen

Spacious drawers and wall cabinets offer ample storage space for cookware and supplies. The open sliding door creates an outdoor kitchen feel. Matt black fittings and the integrated hob with elegant glass cover add modern design accents.

70 l compressor refrigerator
from Dometic with freezer compartment

Function meets
design.

Integrated sink and 2-burner stove with piezo ignition and covers

Refrigerator can be opened from both sides
& is integrated in a space-saving manner

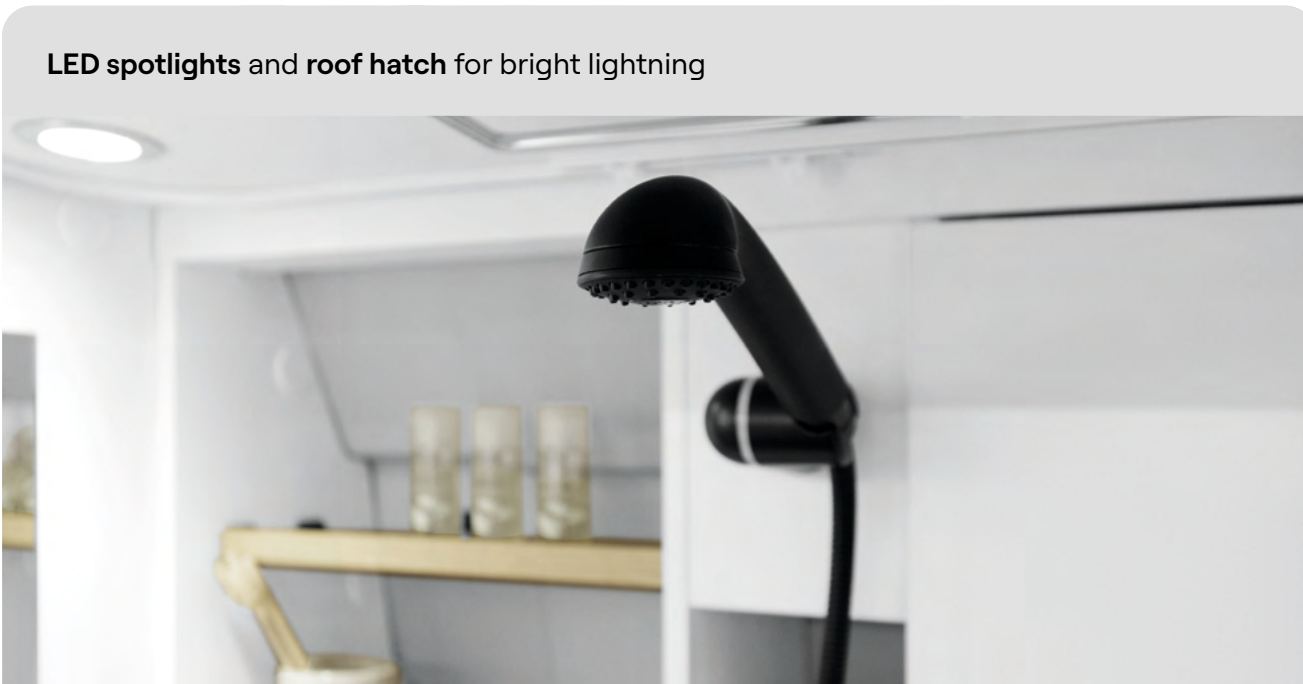

Bathroom

The fully equipped bathroom has a toilet, shower and washbasin. A roof hatch and a side window ensure optimal ventilation. Well-designed storage solutions in the upper area, a washbasin cabinet and a generous mirror round off the features.

This page shows the prototype bathroom – please contact us for further bathroom options.

Large bathroom cabinet and mirror

LED spotlights and roof hatch for bright lightning

Rotatable 18l Thetford cassette toilet

Flexible table

Practical table with rotating additional plate – can be completely removed if required.

Soft-close function

High-quality hinges for smooth, silent closing.

Design

Modern wood panelling combined with indirect LED lighting creates a stylish, cosy atmosphere.

Frame window

All-round frame windows with an elegant appearance and effective insulation.

Beautiful view

Windows in the rear doors for an unobstructed view – with integrated blackout blinds.

Easy-care flooring

With integrated LED lighting and multiple warm air vents – for a pleasant climate.

Insect protection

Practical fly screen door for fresh air without insects inside.

Roof hatches

Two Dometic roof hatches in the living area and one in the bathroom provide daylight and fresh air.

Lighting concept

Sophisticated LED lighting with ambient light – atmospheric and energy efficient.

Sleeping comfort

Comfortable ergonomic mattresses and high-quality slatted frames

Smart storage space

Well thought-out solutions, such as a clothes rail under the single beds.

Heating

Standard Truma Combi C4 gas with smart control. Optionally available with Truma diesel heating.

Onboard multimedia system

Smart home integration

The standard all-in-one control system from REVOTION connects all electrical consumers in the vehicle – from the Truma heater and water pump to the lighting. All functions can be conveniently controlled via the central, intuitive control panel or remotely via an app. This means you can keep an eye on the current battery, charge and fuel status at all times – in real time, even when you're on the move. Smart TV entertainment in your motorhome optional

22-inch smart TV with Full HD, triple tuner and WiFi for unlimited entertainment in your motorhome. Thanks to the clever mounting bracket, you can enjoy watching television from the dinette or the bedroom.

Versatile charging options

Numerous, conveniently located 230 V, USB-A and USB-C sockets for maximum comfort on the go.

Our quality promise

Comprehensive dealer and service network

Our Germany-wide partner network combines support for base vehicles and bodywork – for seamless, comprehensive service from a single source.

Manufacturing at the highest level

Production takes place at the Erwin Hymer Group's modern factory in San Casciano – with precision and the highest quality standards.

7-year leak-proof guarantee

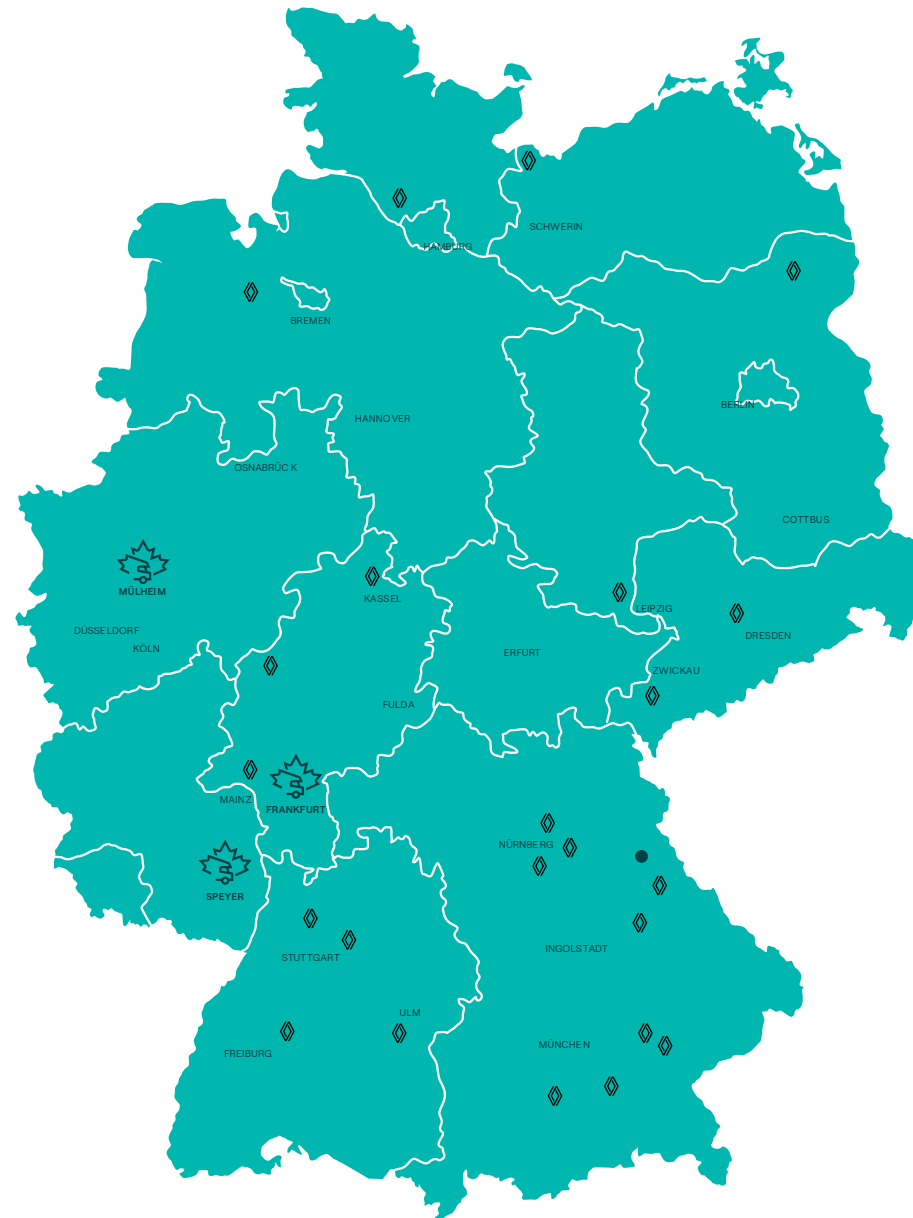

Only one annual leak test required – a sign of confidence in the high-quality GRP construction.

Durability & value retention

Der Einsatz langlebiger Materialien und hochwertiger Markenkomponenten senkt den Reparaturaufwand und schont Ressourcen.

Additional security

In cooperation with our partner Consors Finanz, we offer repair cost insurance with an extended term of up to 48 months.
